

SAU 39

Joint Loss Management Committee Meeting

Minutes

May 9, 2016

3 pm – 4 pm

[SHS](#)

WC Losses – We have experienced a total of 8 losses. 4 minor losses at SHS (student interaction). ASD had 4 losses 2 minor (student interaction) and 2 major losses for environmental reactions to construction happening in the school.

There were no Losses at Mont Vernon and SAU

Safety Summary There has not been enough time for all of us to thoroughly review the safety summary. If anyone has comments or concerns they can contact Carrie directly. Overall everyone thinks it looks great.

Department of Labor inspection response. The response is thorough and looks like a good plan to improve safety overall in the schools.

Discussion did bring up some concerns with cleaning practices and procedures. John R. will be scheduling training with Hillyard for training on best cleaning practices, which the nursing staff would like to attend. Hoping to schedule for first facilities training in the fall.

Presentations for remaining 2015-2016 Facility Audits – Due to loss of internet access at SHS the Audits for SHS and Wilkins could not be accessed. Therefore presentations could not be made.
