

AHERA NOTICE

Under the ASBESTOS HAZARD EMERGENCY RESPONSE ACT, better known as (AHERA), the Amherst and Mont Vernon School Districts are required to inform the building occupants, or their legal guardians, that the schools contain Asbestos-containing building materials (ACBM).

In compliance with AHERA, all schools have been inspected for ACBM and Management Plans have been developed by an accredited Management Planner. These Management Plans were submitted to the state and received by the Department of Education prior to the *July 1, 1989* deadline.

Each school has an AHERA Management Plan which addresses ongoing ACBM inspection and response activities. Each school's AHERA Management Plan is available for inspection by the public, including parents, teachers and other school personnel and their representatives within five (5) working days after receiving a request for inspection.
