Video and Audio Surveillance

The Board authorizes the use of video and/or audio devices on District property to ensure the health, welfare, and safety of all students, staff and visitors to District property and to safeguard District buildings, grounds, and equipment. The Superintendent will approve appropriate locations for surveillance devices with recommendations from the Board and (where applicable) Community Council.

Signs will be posted on school buildings to notify students, staff and visitors that video and audio recording devices may be in use. At the Superintendent's discretion, parents and students may also be notified through the student handbook.

Live surveillance can only be used by authorized personnel with permission from building administrators or the Superintendent. The Superintendent may rescind authority at any time.

All persons will be responsible for any violations of school rules recorded.

The district shall retain copies of recordings until they are erased, which may be accomplished by either deletion or copying over with a new recording. Recordings shall be maintained for a minimum of thirty (30) days.

Video and Audio Recordings Used for Student Discipline Matters

Recordings containing evidence of a violation of student conduct rules, school board policy, and/or state or federal law will be retained until the issue of the misconduct is no longer subject to review or appeal, as determined by board policy or applicable law. Any release or review of the recording will be in accordance with the law.

In the event a recording is used as part of a student discipline proceeding, such recording may become part of a student's education record. If a recording does become part of a student's education record, the provisions of Policy JRA shall apply. The Superintendent is authorized to contact the District's attorney for a full legal opinion relative to such an occurrence.

Video and Audio Recordings Used for Special Education Purposes

Recordings may be used for special education or Section 504 purposes, when a student's individualized education program or accommodation plan includes audio or video recording as part of the child's education. All such recordings will be maintained in accordance with the Family Education Rights and Privacy Act, 20 U.S.C. section 1232g, and other applicable law(s).

Other Purposes for Which Video and Audio Recordings May Be Used

The school board authorizes the superintendent to use video and/or audio recordings to the extent either required or prohibited by law.
