## **INDEPENDENT AUDITOR'S REPORT**

To the School Board  
Amherst, New Hampshire School District

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Amherst, New Hampshire School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Amherst, New Hampshire School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Amherst, New Hampshire School District, as of June 30, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Amherst, New Hampshire School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Change in Accounting Policy***

As discussed in Note 14 to the financial statements, during the year ended June 30, 2022, the Amherst, New Hampshire School District changed its accounting policy related to capitalization of assets and elected to retroactively apply the change to the start of the fiscal year. Our opinions are not modified with respect to this matter.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Amherst, New Hampshire School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Amherst, New Hampshire School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Amherst, New Hampshire School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the District's proportionate share of the net OPEB liability, schedule of District OPEB contributions, schedule of changes in the District's total OPEB liability and related ratios, schedule of changes in the District's proportionate share of the net pension liability, and schedule of District pension contributions be presented to supplement the basic financial statements. Such information is the responsibility of

management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Amherst, New Hampshire School District's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 27, 2023, on our consideration of the Amherst, New Hampshire School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Amherst, New Hampshire School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Amherst, New Hampshire School District's internal control over financial reporting and compliance.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FISCAL YEAR ENDING JUNE 30, 2022**

Presented herewith please find the Management Discussion & Analysis Report for the Amherst, New Hampshire School District (the District) for the fiscal year ending June 30, 2022. The responsibility for accuracy of the data, the completeness and fairness of this documentation (including all disclosures) rests with management. To the best of our knowledge and belief, the data contained herein is accurate in all material aspects. This report and its content have been designed to fairly present the District's financial position, including the results of operations of all the funds of the District. All the disclosures necessary to enable and to assist the reader in acquiring an accurate understanding of the District's financial activities have been included.

The District is responsible for establishing accounting and internal control structures designed to ensure that the physical, data, informational, intellectual, and human resource assets of the District are protected from loss, theft, and misuse, and to ensure that adequate accounting information is maintained and reported in conformity with generally accepted accounting principles (GAAP). Management also strives to ensure that these assets are put to good and effective use. The internal control structure is designed to provide reasonable assurances that these objectives are attained.

**Overview of the Financial Statements**

The financial statements presented herein include all of the activities of the District using the integrated approach as prescribed by GASB Statement 34.

This discussion and analysis is intended to serve as an introduction to the District's financial statements. The basic financial statements are comprised of the following three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

***Government-Wide Financial Statements***

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to most private-sector companies.

The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the remaining difference reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

***Fund Financial Statements***

A fund is a grouping of related accounts that is used to maintain the control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and to demonstrate compliance with finance-related legal requirements. All the funds of the District are included in one category, governmental funds.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FISCAL YEAR ENDING JUNE 30, 2022**

**Governmental funds:** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, our readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between the governmental activities Statement of Net Position and Statement of Activities.

The District maintains numerous individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund and Grants Fund, which are considered major funds. Data for the other governmental funds, such as the Food Service Fund and Student Activity Fund, and Permanent Funds, are combined into a single, aggregate presentation.

The District adopts an annual appropriation budget for its governmental funds. A budgetary comparison has been provided for the General Fund to demonstrate compliance with this budget. Budgetary information has not been included in these financial statements for the Grants Fund, as it is neither practical nor meaningful.

***Notes to the Basic Financial Statements***

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

***Other Information***

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information which is required to be disclosed by accounting principles generally accepted in the United States of America.

**Financial Highlights**

As of the close of the fiscal year, total assets and deferred outflows of resources were exceeded by liabilities and deferred inflows of resources by (\$18,236,984) (i.e., net position), an increase of \$289,076 from the previous year.

Total Governmental Funds reported combined ending fund balances of \$2,592,765, a decrease of (\$550,465) from the previous year.

The General Fund shows a year end fund balance of \$2,333,671, a decrease of (\$749,618) from the previous year.

***Financial Analysis***

**Government-Wide**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, total net position was a deficit of (\$18,236,984), an increase of \$289,076 from the previous year. See page 6 of the Basic Financial Statements for a detailed reconciliation between the government-wide and fund financial statements change in net position.

A significant portion of net position \$6,475,015 reflects our investment in capital assets (e.g., land, buildings, machinery and equipment); less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net position in the amount of \$170,660 presents resources that are subject to restrictions on how they may be used. The remaining unrestricted amount is what is available to meet the government's ongoing obligations to its citizens and creditors. The significant deficit unrestricted net position balance at year end is due to reporting requirements in which the District is required to include its proportionate share of the New Hampshire Retirement System's unfunded pension and OPEB liabilities. A deficit unrestricted net position balance is expected to continue into subsequent years.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FISCAL YEAR ENDING JUNE 30, 2022**

**Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,592,765, a decrease of (\$550,465) when compared to the last fiscal year. This includes a (\$749,618) decrease in the total fund balance of the General Fund. The General Fund is the chief operating fund of the District.

Fund Balances for the District may fall into one of the five following classifications - Nonspendable, Restricted, Committed, Assigned and Unassigned.

Committed Fund Balances account for a significant percentage of the total Fund Balance and includes \$1,088,033 for expendable trusts and \$650,000 for fiscal year 2023 appropriations. Assigned Fund Balance include \$13,346 for encumbrances and \$88,434 for student activity funds. Restricted amounts include \$159,857 for food service operations and \$1,333 for permanent fund income. Nonspendable amounts include \$759 of prepaid items and \$9,470 of permanent fund principal. See Note 9 in the Notes to the Basic Financial Statements, Components of Fund Balance, on page 25 for additional information.

**General Fund Budgetary Highlights**

Budgetary information for the District's major governmental funds (General Fund only, see below) is included in the "Required Supplementary Information" section. Please see Note 1 in the Notes to the Required Supplementary Information, Budget to Actual Reconciliation, for a reconciliation of the modified accrual basis of accounting to the budgetary basis of the General Fund. The budgetary information is not presented for the Grants Fund, as it is neither practical nor meaningful.

Actual revenues on the budgetary basis were higher than the budgeted amount by \$565,085. A significant portion of this difference is due to Medicaid Reimbursements revenue being higher than anticipated. Actual expenditures and other financing uses on the budgetary basis were \$666,736 lower than anticipated. Significant savings were realized in the instruction, instructional staff services, operations and maintenance of plant and central services functions. See the Schedule on page 29 for additional budgetary comparison information.

**Capital Assets**

The District considers a capital asset to be an asset whose cost equals or exceeds \$100,000 for infrastructure and \$20,000 for all other categories and has a useful life of greater than five years. Assets are depreciated using the straight-line method over the course of their estimated useful life. See Note 3 in the Notes to the Basic Financial Statements for additional information on the capital assets activity.

**Long-Term Obligations**

During the current year the District showed a decrease in general obligations bonds of \$370,000 due to scheduled payments made on existing debt and a decrease of \$18,144 due to amortization of the related bond premium. Compensated absences had a net decrease in potential future payments of \$368,474. The

liabilities for other postemployment benefits and net pension had a net increase and decrease in potential future payments of \$71,145 and (\$8,284,097), respectively. See Notes 4, 5 and 6 in the Notes to the Basic Financial Statements for additional information regarding the compensated absences, net pension liability, other postemployment benefits obligations.

**Reconciliation of the Statement of Revenues, Expenditures**  
**and Changes in Fund Balances of Governmental Funds**  
**to the Statement of Activities**  
For the Year Ended June 30, 2022

|  |              |
|--|--------------|
| Net Change in Fund Balances - Governmental Funds (Exhibit D) | \$ (550,465) |
|--|--------------|

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital outlays and depreciation expense in the current period are as follows:

|                      |           |
|----------------------|-----------|
| Capital outlays      | 115,100   |
| Depreciation expense | (459,123) |

Repayment of principal on long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Repayments in the current year are as follows:

|                     |         |
|---------------------|---------|
| Bond principal paid | 370,000 |
|---------------------|---------|

Governmental funds report the effect of bond issuance premiums when the debt is first issued, whereas these amounts are amortized in the statement of activities over the life of the related debt. The activity recognized in the current year is as follows:

|  |        |
|--|--------|
| Amortization of bond issuance premiums | 18,144 |
|--|--------|

|   |        |
|---|--------|
| In the statement of activities, interest is accrued on outstanding bonds whereas in the governmental funds, an interest expenditure is reported when due. | 10,832 |

Governmental funds report OPEB and pension contributions as expenditures. However, in the statement of activities, OPEB and pension expense reflects the change in the OPEB liability and net pension liability and related deferred outflows and inflows of resources, and does not require the use of current financial resources. This is the amount by which OPEB and pension expense differed from OPEB and pension contributions in the current period.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
For the Year Ended June 30, 2022

**NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the Amherst, New Hampshire School District conform to accounting principles generally accepted in the United States of America for local educational units of government, except as indicated hereinafter. The following is a summary of significant accounting policies.

***Financial Reporting Entity***

The Amherst, New Hampshire School District (the District) is an independent governmental entity organized under the laws of the State of New Hampshire to provide public education within the borders of the Town of Amherst, New Hampshire. The District's legislative body is the annual deliberative session followed by balloting of registered voters within the District and is governed by an elected School Board. Administrative services are provided to the District by School Administrative Unit #39. The District has no other separate organizational units, which meet criteria for inclusion in the financial statements as defined by the Governmental Accounting Standards Board (GASB).

***Basis of Presentation***

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**1. Government-Wide Financial Statements:**

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government.

The statement of net position presents the financial condition of the governmental activities of the District at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that are required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

**2. Fund Financial Statements:**

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

For the Year Ended June 30, 2022

***Fund Accounting***

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District employs solely the use of governmental funds.

**1. Governmental Funds:**

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources, is reported as fund balance. The following are the District's major governmental funds:

The *General Fund* is the main operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund.

The *Grants Fund* is used to account for the financial resources related to the various local, state and federal grants and the related expenditures.

***Measurement Focus***

**1. Government-Wide Financial Statements:**

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the District are included on the Statement of Net Position.

**2. Fund Financial Statements:**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

***Basis of Accounting***

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

and the modified accrual basis of accounting arise in the recognition of revenue and in the presentation of expenses versus expenditures.

**1. Revenues – Exchange and Non-exchange Transactions:**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 10). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes, interest, tuition, and student fees.

Grants and entitlements received before the eligibility requirements are met are recorded as advances from grantors. On governmental fund financial statements, receivables that will not be collected within the available period are reported as deferred inflows of resources.

**2. Expenses/Expenditures:**

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization are not recognized in governmental funds.

***Budgetary Data***

The District's budget represents functional appropriations as authorized by annual or special District meetings. The school board may transfer funds between operating categories as they deem necessary. The District adopts its budget under State regulations, which differ somewhat from accounting principles generally accepted in the United States of America in that the focus is on the entire governmental unit rather than on the basis of fund types.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

State law requires balanced budgets but permits the use of beginning fund balance to reduce the property tax rate. For the year ended June 30, 2022, the District applied \$1,564,545 of its unassigned fund balance to reduce taxes.

***Capital Assets***

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The District maintains a capitalization threshold of \$100,000 for infrastructure and \$20,000 for all other classes of capital assets. The District does not possess any infrastructure or intangible assets. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| <u>Description</u>                  | <u>Years</u> |
|-------------------------------------|--------------|
| Land improvements                   | 20           |
| Buildings and building improvements | 10-40        |
| Equipment and vehicles              | 5-20         |

***Compensated Absences***

Employees earn vacation and sick leave as they provide services. Provision is made in the annual budget for vacation and sick leave. Pursuant to District personnel policy and collective bargaining agreements, employees may accumulate (subject to certain limitations) unused vacation and sick pay earned and, upon severance of employment, will be compensated for such amounts at current rates of pay.

For governmental fund financial statements, compensated absences are reported as liabilities and expenditures as payments come due each period upon the occurrence of employee death or retirement. The entire compensated absence liability is reported on the government-wide financial statements.

***Accrued Liabilities and Long-Term Obligations***

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as liabilities in the fund financial statements only to the extent that they are due for payment during the current fiscal year.

General obligation bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

***Bond Premiums***

Bond premiums are amortized as a component of interest expense over the life of the related bond using the effective interest rate method. Bonds payable are reported in the accompanying financial statements gross of any applicable unamortized bond premium.

***Postemployment Benefits Other Than Pensions (OPEB)***

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Hampshire Retirement System (NHRS) OPEB Plan and additions to/deductions from NHRS's fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, NHRS recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for non-registered commingled funds valued at net asset value (NAV) as a practical expedient to estimate fair value.

***Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Hampshire Retirement System (NHRS) and additions to/deductions from NHRS's fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

***Net Position***

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances on any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

***Fund Balance Policy***

The District has segregated fund balance into five classifications: Nonspendable, Restricted, Committed, Assigned, and Unassigned. The components of fund balance are defined as follows:

- *Nonspendable Fund Balance*: Amounts that are not in a spendable form or are required to be maintained intact.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

- *Restricted Fund Balance*: Amounts constrained to specific purposes by their providers through constitutional provisions or by enabling legislation.
- *Committed Fund Balance*: Amounts constrained to specific purposes by a government itself using its highest level of decision-making authority. To be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.
- *Assigned Fund Balance*: Amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.
- *Unassigned Fund Balance*: Amounts that are available for any purpose; these amounts are reported only in the General Fund, with the exception of any deficit fund balance of another governmental fund.

The District's policy is to return to the Town, any unassigned fund balance at fiscal year-end, to be used to offset the subsequent fiscal year's tax rate.

*Spending Prioritizations*

When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, restricted fund balance is considered to have been spent first. When expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, committed amounts should be reduced first, followed by assigned amounts and then unassigned amounts.

*Interfund Activity*

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

*Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**NOTE 2—DEPOSITS**

Deposits as of June 30, 2022 are classified in the accompanying financial statements as follows:

|                            |                   |

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

Deposits at June 30, 2022 consist of the following:

|                                      |                   |
|--------------------------------------|-------------------|
| Deposits with financial institutions | <u>\$ 934,731</u> |
|--------------------------------------|-------------------|

The District's investment policy for governmental funds requires that deposits and investments be made in New Hampshire based financial institutions that are participants in one of the federal depository insurance programs. The District limits its investments to money market investment accounts, certificates of deposit, and United States Government obligations in accordance with New Hampshire State Law (RSA 197:23-a).

Deposits for Student Activity Funds are at the discretion of the School Principals and Superintendent of Schools.

***Custodial Credit Risk***

Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned to it. In accordance with the District's investment policy, all deposits in excess of federal depository insurance must be secured by collateral having a value at least equal to the amount of such funds. Of the District's deposits with financial institutions at year end, \$1,857,889 was collateralized by securities held by the bank in the bank's name.

**NOTE 3—CAPITAL ASSETS**

**COST-SHARING MULTIPLE EMPLOYER PLAN**

***Plan Description***

The New Hampshire Retirement System (NHRS) administers a cost-sharing multiple-employer other postemployment benefit plan (OPEB Plan). The OPEB Plan provides a medical insurance subsidy to qualified retired members.

The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for NHRS. That report may be obtained by writing to New Hampshire Retirement System at 54 Regional Drive, Concord, New Hampshire 03301 or from their website at [www.nhrs.org](http://www.nhrs.org).

The OPEB Plan is divided into four membership types. The four membership types are Group II Police Officer and Firefighters, Group I Teachers, Group I Political Subdivision Employees, and Group I State Employees. The OPEB plan is closed to new entrants.

***Benefits Provided***

Benefit amounts and eligibility requirements for the OPEB Plan are set by state law (RSA 100-A:52, RSA 100-A:52-a and RSA 100-A:52-b), and members are designated in statute by type. The medical insurance

For the Year Ended June 30, 2022

subsidy is a payment made by NHRS to the former employer or its insurance administrator toward the cost of health insurance for a qualified retiree, his/her qualified spouse, and his/her certified dependent children with a disability who are living in the household and being cared for by the retiree. If the health insurance premium amount is less than the medical subsidy amount, then only the health insurance premium amount will be paid. If the health insurance premium amount exceeds the medical subsidy amount, then the retiree or other qualified person is responsible for paying any portion that the employer does not pay.

Group I benefits are based on creditable service, age and retirement date. Group II benefits are based on hire date, age and creditable service. Medical subsidy rates established by RSA 100-A:52 II are dependent upon whether retirees are eligible for Medicare. Retirees not eligible for Medicare may receive a maximum medical subsidy of \$375.56 for a single person plan and \$751.12 for a two-person plan. Retirees eligible for Medicare may receive a maximum medical subsidy of \$236.84 for a single person plan and \$473.68 for a two-person plan.

***Funding Policy***

Per RSA 100-A:16, contribution rates are established and may be amended by the New Hampshire State legislature and are determined by the NHRS Board of Trustees based on an actuarial valuation. The District's contribution rates for the covered payroll of political subdivision employees and teachers were 0.31% and 1.54%, respectively, for the year ended June 30, 2022. Contributions to the OPEB plan for the District were \$192,865 for the year ended June 30, 2022. Employees are not required to contribute to the OPEB plan.

***OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

At June 30, 2022, the District reported a liability of \$1,748,856 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by a roll forward of the actuarial valuation from June 30, 2020. The District's proportion of the net OPEB liability was based on actual contributions by the District during the relevant fiscal year relative to the actual contributions of all participating plan members, excluding contributions to separately finance specific liabilities of individual employers or NHRS. At June 30, 2021, the District's proportion was approximately 0.4367 percent, which was an increase of approximately 0.0120 percentage points from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized OPEB expense of \$153,085. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

The District reported \$192,865 as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date. This amount will be recognized as a reduction of the net OPEB liability in the measurement period ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense for the measurement periods as follows:

|                 | <u>\$ (21,770)</u> |

***Actuarial Assumptions***

The total OPEB liability was determined by a roll forward of the actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

|                           |   |
|---------------------------|---|
| Inflation                 | 2.00%   |
| Wage inflation            | 2.75% (2.25% for Teachers)  |
| Salary increases          | 5.60%, average, including inflation   |
| Investment rate of return | 6.75% per year, net of OPEB plan investment expense, including inflation for determining solvency contributions |

Mortality rates were based on the Pub-2010 Healthy Retiree Mortality Tables with credibility adjustments for each group (Police and Fire combined) and projected fully generational mortality improvements using Scale MP-2019.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2015 – June 30, 2019.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

The long-term expected rate of return on OPEB Plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. Following is a table presenting target allocations and geometric real rates of return for each asset class:

| <u>Asset Class</u>      | <u>Target Allocation</u> | <u>Weighted Average Long-Term<br/>Expected Real Rate of Return</u> |
|-------------------------|--------------------------|--|
| Domestic equity         | 30%                      | 1.14-6.46%   |
| International equity    | 20%                      | 2.37-5.53%   |
| Fixed income            | 25%                      | 3.60%  |
| Alternative investments | 15%                      | 7.25-8.85%   |
| Real estate             | 10%                      | 6.60%  |
| Total                   | <u>100%</u>              |  |

The discount rate used to measure the collective total OPEB liability as of June 30, 2021 was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made under the current statute RSA 100-A:16 and RSA 100-A:53. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB Plan investments was applied to all periods of projected benefit payments to determine the collective total OPEB liability.

***Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate***

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 6.75 percent, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the single discount rate:

|                    | <u>1% Decrease</u> | <u>Current</u> | <u>1% Increase</u> |

**SINGLE EMPLOYER PLAN**

***Plan Description***

The Amherst, New Hampshire School District administers the retiree health care benefits program, a single employer defined benefits plan that is used to provide postemployment benefits other than pensions (OPEB) for all permanent full-time employees. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

***Benefits Provided***

The District provides postemployment medical benefits to its eligible retirees and their spouses. The benefits are provided through fully insured plans that are sponsored by a state-wide health insurance

consortium. Employees hired before July 1, 2011 must meet one of the following eligibility requirements: age 60 or older with no minimum service requirement, age 50 with 10 years of service, or age plus service equals 70 with a minimum of 20 years of service. Employees hired on or after July 1, 2011 must meet the following eligibility requirements: age 65 regardless of years of creditable service, or age 60 with at least 30 years of service. Retirees and their covered spouses pay the full cost of the medical premium. The benefits, benefit levels, employee contributions and employer contributions are governed by RSA 100-A:50.

***Employees Covered By Benefit Terms***

As of the July 1, 2020 valuation, the following employees were covered by the benefit terms:

|  |            |

***Total OPEB Liability***

The District's total OPEB liability of \$5,221,373 was measured as of June 30, 2022 and was determined by a rollforward of the actuarial valuation as of July 1, 2020.

***Actuarial Assumptions and Other Inputs for OPEB***

The total OPEB liability in the July 1, 2020 valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

|                             |   |
|-----------------------------|---|
| Salary increases            | 2.00%   |
| Discount rate               | 2.16%   |
| Healthcare cost trend rates | Initial rate of 4.60%, decreasing to 2.70% for 2021, increasing to 6.50% for 2022, then decreasing to an ultimate rate of 4.04% by 2089 |

The discount rate was based on the Bond Buyer 20-Bond General Obligation Index as of June 30, 2021.

Mortality rates were based on the SOA RP-2014 Total Dataset Mortality with Scale MP-2020.

**NOTE 6—DEFINED BENEFIT PENSION PLAN**

***Plan Description***

The District contributes to the New Hampshire Retirement System (NHRS), a public employee retirement system that administers a single cost-sharing multiple-employer defined benefit pension plan. The plan provides service, disability, death and vested retirement allowances to plan members and beneficiaries. Benefit provisions are established and may be amended by the New Hampshire State legislature.

The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for NHRS. That report may be obtained by writing to New Hampshire Retirement System, 54 Regional Drive, Concord, New Hampshire 03301 or from their website at [www.nhrs.org](http://www.nhrs.org).

Substantially all full-time state and local employees, public school teachers, permanent firefighters and permanent police officers within the State are eligible and required to participate in the Pension Plan.

The Pension Plan is divided into two membership groups. State and local employees and teachers belong to Group I. Police and firefighters belong to Group II.

***Benefits Provided***

Benefit formulas and eligibility requirements for the pension plan are set by State law (RSA 100-A).

Group I benefits are provided based on creditable service and average final salary for the highest of either three or five years, depending on when service commenced.

Group II benefits are provided based on age, years of creditable service and a benefit multiplier depending on vesting status as of January 1, 2012. The maximum retirement allowance for Group II members vested by January 1, 2012 (45 years of age with 20 years of service or age 60 regardless of years of creditable service) is the average final compensation multiplied by 2.5% multiplied by creditable service. For Group II members not vested by January 1, 2012 the benefit is calculated the same way, but the multiplier used in the calculation will change depending on age and years of creditable service as follows:

| Years of Creditable Service as of<br><u>January 1, 2012</u> | Minimum<br><u>Age</u> | Minimum<br><u>Service</u> | Benefit<br><u>Multiplier</u> |
|---|-----------------------|---------------------------|------------------------------|
| At least 8 but less than 10 years                           | 46                    | 21                        | 2.4%                         |
| At least 6 but less than 8 years                            | 47                    | 22                        | 2.3%                         |

For the Year Ended June 30, 2022

***Funding Policy***

Plan members are required to contribute 7.0% of their covered salary and the District is required to contribute at an actuarially determined rate. The District's contribution rates for the covered payroll of teachers and general employees were 19.48% and 13.75%, respectively, for the year ended June 30, 2022. The District contributes 100% of the employer cost for teachers and general employees of the District.

Per RSA 100-A:16, plan member contribution rates are established and may be amended by the New Hampshire State legislature and employer contribution rates are determined by the NHRS Board of Trustees based on an actuarial valuation. The District's contributions to the NHRS for the year ending June 30, 2022 were \$2,735,099.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2022, the District reported a liability of \$20,308,313 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by a roll forward of the actuarial valuation from June 30, 2020. The District's proportion of the net pension liability was based on actual contributions by the District during the relevant fiscal year relative to the actual contributions of all participating plan members, excluding contributions to separately finance specific liabilities of individual employers or NHRS. At June 30, 2021, the District's proportion was approximately 0.4582 percent, which was an increase of approximately 0.0112 percentage points from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized pension expense of \$1,980,622. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred<br>Outflows of<br><u>Resources</u> | Deferred<br>Inflows of<br><u>Resources</u> |

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

The net amount of deferred outflows of resources and deferred inflows of resources related to pensions is reflected as an increase to unrestricted net position in the amount of \$613,926. The District reported \$2,735,099 as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date. This amount will be recognized as a reduction of the net pension liability in the measurement period ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the measurement periods as follows:

| <u>June 30,</u> |                       |
|-----------------|-----------------------|
| 2022            | \$ 24,681             |
| 2023            | (95,926)              |
| 2024            | (307,757)             |
| 2025            | (1,742,171)           |
|                 | <u>\$ (2,121,173)</u> |

***Actuarial Assumptions***

The total pension liability was determined by a roll forward of the actuarial valuation as of June 30, 2020, using the following actuarial assumptions:

|                           |   |
|---------------------------|---|
| Inflation                 | 2.00%   |
| Wage inflation            | 2.75% (2.25% for Teachers)  |
| Salary increases          | 5.60%, average, including inflation                                   |
| Investment rate of return | 6.75%, net of pension plan investment expense,<br>including inflation |

Mortality rates were based on the Pub-2010 Healthy Retiree Mortality Tables with credibility adjustments for each group (Police and Fire combined) and projected fully generational mortality improvements using Scale MP-2019.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2015 – June 30, 2019.

The long-term expected rate of return on pension plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. Following is a table presenting target allocations and geometric real rates of return for each asset class:

| <u>Asset Class</u>      | <u>Target Allocation</u> | <u>Weighted Average Long-Term<br/>Expected Real Rate of Return</u> |
|-------------------------|--------------------------|--|
| Domestic equity         | 30%                      | 1.14-6.46%   |
| International equity    | 20%                      | 2.37-5.53%   |
| Fixed income            | 25%                      | 3.60%  |
| Alternative investments | 15%                      | 7.25-8.85%   |
| Real estate             | 10%                      | 6.60%  |
| Total                   | <u>100%</u>              |  |

***Discount Rate***

The discount rate used to measure the collective pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer contributions are projected based on the expected payroll of current members only. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the collective pension liability.

***Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate***

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the single discount rate:

|                       | <u>1% Decrease</u> | <u>Current</u> | <u>1% Increase</u> |
|-----------------------|--------------------|----------------|--------------------|
| Net pension liability | \$ 29,043,211      | \$ 20,308,313  | \$ 13,021,982      |

**NOTE 7—INTERFUND BALANCES**

The District has combined the cash resources of its governmental funds. For accounting and reporting purposes, that portion of the pooled cash balance is reported in the specific fund as an interfund balance. Interfund balances at June 30, 2022 are as follows:

|                             | <u>General<br/>Fund</u> | <u>Due from<br/>Grants<br/>Fund</u> |                   | <u>Totals</u> |

**NOTE 10—PROPERTY TAXES**

Property taxes levied to support the Amherst, New Hampshire School District are based on the assessed valuation of the prior April 1st for all taxable real property.

Under state statutes, the Town of Amherst, New Hampshire (an independent governmental unit) collects School District taxes and State of New Hampshire Education Taxes as part of local property tax assessments. As collection agent, the Town is required to pay over to the District its share of property tax assessments through periodic payments based on cash flow requirements of the District. The Town assumes financial responsibility for all uncollected property taxes under state statutes. For the year ended June 30, 2022, School District taxes were \$21,058,969 and State of New Hampshire Education taxes were \$2,477,298.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

The District is entitled to receive monies under the established payment schedule and the unpaid amount at the fiscal year end, if any, is considered to be an “accounts receivable” since the revenue is both measurable and available.

**NOTE 11—DEFINED CONTRIBUTION PLAN**

The District contributes to the Amherst School District 403(b) Plan. The plan is considered to be a defined contribution plan and was established under Internal Revenue Code (IRC) section 403. The plan allows employees to defer income taxation on retirement savings into future years and is administered by a third party. All employees of the District are eligible to make contributions to the plans. The plans have no required minimum contributions for employees. Contribution rates are established pursuant to amounts stipulated in collective bargaining agreements or individual employment contracts. Employees are 100% vested upon enrollment. Contributions to the 403(b) Plan made by the plan members and the District for the fiscal year ended June 30, 2022 were \$578,845 and \$259,819, respectively.

**NOTE 12—RISK MANAGEMENT**

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended June 30, 2022, the District was a member of and participated in a public entity risk pool (Trust) for property and liability insurance and worker’s compensation coverage. Coverage has not been significantly reduced from the prior year and settled claims have not exceeded coverage in any of the past three years.

The Trust agreements permit the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. Accounting principles generally accepted in the United States of America require members of pools with a sharing of risk to determine whether or not such assessment is probable and, if so, a reasonable estimate of such assessment. At this time, the Trust foresees no likelihood of an additional assessment for any of the past years. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Based on the best available information there is no liability at June 30, 2022.

***Property and Liability Insurance***

The Trust provides certain property and liability insurance coverage to member school districts, school administrative units, and other qualified political subdivisions of New Hampshire. As a member of the Trust, the District shares in contributing to the cost of and receiving benefit from a self-insured pooled risk management program. The program includes a Self-Insured Retention Fund from which is paid up to \$200,000 for each and every covered property, crime and/or liability loss that exceeds \$1,000, up to an aggregate of \$1,200,000. Each property loss is subject to a \$1,000 deductible. All losses over the aggregate are covered by insurance policies.

**NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)**  
For the Year Ended June 30, 2022

***Worker's Compensation***

The Trust provides statutory worker's compensation coverage to member school districts, school administrative units, and other qualified political subdivisions of New Hampshire. The Trust is self-sustaining through annual member premiums and provides coverage for the statutorily required workers' compensation benefits and employer's liability coverage up to \$2,000,000. The program includes a Loss Fund from which is paid up to \$500,000 for each and every covered claim.

**NOTE 13—CONTINGENT LIABILITIES**

***Federal Grants***

The District participates in a number of federally assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amounts, if any, of expenditures which may be disallowed by the granting agency cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

***Litigation***

There may be various claims and suits pending against the District, which arise in the normal course of the District's activities. In the opinion of District management, any potential claims against the District, which are not covered by insurance are immaterial and would not affect the financial position of the District.

**NOTE 14—RESTATEMENT OF EQUITY**

***Change in Accounting Policy***

During the year ended June 30, 2022, the District increased its capitalization threshold from \$10,000 to \$100,000 for infrastructure and \$20,000 for all other classes of capital assets. The District has elected to retroactively apply the policy effective July 1, 2021.

In addition to the above change in accounting policy, during the year ended June 30, 2022, it was determined the District has Permanent Funds held by the Town of Amherst Trustees of Trust Funds, which were not previously reported.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
For the Year Ended June 30, 2022

**NOTE 1—BUDGET TO ACTUAL RECONCILIATION**

***General Fund***

Amounts recorded as budgetary amounts in the Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (Budgetary Basis) – General Fund (Schedule 1) are reported on the basis budgeted by the District. Those amounts differ from those reported in conformity with accounting principles generally accepted in the United States of America in the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds (Exhibit D). General Fund budgetary revenues and other financing sources and expenditures and other financing uses were adjusted for non-budgetary activity, budgetary transfers, and encumbrances as follows:

|                              | Revenues<br>and Other<br>Financing<br>Sources | Expenditures<br>and Other<br>Financing<br>Uses |
|------------------------------|---|--|
| Per Exhibit D                | \$ 28,924,800                                 | \$ 29,674,418                                  |
| Non-budgetary activity       | 14,647  | (38,250)                                       |
| Budgetary transfers          |   | 500,000  |
| Encumbrances - June 30, 2021 |   | (377,343)                                      |
| Encumbrances - June 30, 2022 |   | 13,346   |
| Per Schedule 1               | <u>\$ 28,939,447</u>                          | <u>\$ 29,772,171</u>                           |

***Major Special Revenue Fund***

The District adopts its budgets under regulations of the New Hampshire Departments of Education and Revenue Administration which differ from accounting principles generally accepted in the United States of America. Consequently, budgetary information is not presented for the Grants Fund as the information is neither practical nor meaningful.

**AMHERST, NEW HAMPSHIRE SCHOOL DISTRICT**  
**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
For the Year Ended June 30, 2022

**NOTE 1—BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Amherst, New Hampshire School District (the District) under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Amherst, New Hampshire School District, it is not intended to and does not present the financial position or changes in net position of the Amherst, New Hampshire School District.

**NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in Note 1 to the District's basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

**NOTE 3—INDIRECT COST RATE**

The Amherst, New Hampshire School District has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

To the School Board  
Amherst, New Hampshire School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Amherst, New Hampshire School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Amherst, New Hampshire School District's basic financial statements, and have issued our report thereon dated March 27, 2023.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Amherst, New Hampshire School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Amherst, New Hampshire School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Amherst, New Hampshire School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Amherst, New Hampshire School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM  
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

**Independent Auditor's Report**

To the School Board  
Amherst, New Hampshire School District

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited the Amherst, New Hampshire School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Amherst, New Hampshire School District's major federal programs for the year ended June 30, 2022. Amherst, New Hampshire School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Amherst, New Hampshire School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Amherst, New Hampshire School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Amherst, New Hampshire School District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Amherst, New Hampshire School District's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Amherst, New Hampshire School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Amherst, New Hampshire School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Amherst, New Hampshire School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Amherst, New Hampshire School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Amherst, New Hampshire School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
