Get Ready for Kids Heart Challenge

Click here for more information

It's time for Kids Heart Challenge! This program teaches heart-healthy habits and helps the American Heart Association raise money for research and education that saves lives.

Students will learn about the importance of taking care of their hearts. Heart disease is the leading cause of death in America, but 80% of the risk factors are preventable. As part of our program, your child will learn about making healthy choices and can share lifesaving tips. There is also a parent corner online with tips on keeping your family healthy at home.

Students will help others through this educational community service project. Your child has received his/her fundraising envelope. Start by setting up a personal fundraising page. Here is our school page link:
