**Get Ready for Kids Heart Challenge**

[Click here for more information](#)

It's time for Kids Heart Challenge! This program teaches heart-healthy habits and helps the American Heart Association raise money for research and education that saves lives.

**Students will learn** about the importance of taking care of their hearts. Heart disease is the leading cause of death in America, but 80% of the risk factors are preventable. As part of our program, your child will learn about making healthy choices and can share lifesaving tips. There is also a parent corner online with tips on keeping your family healthy at home.

**Students will help** others through this educational community service project. Your child has received his/her fundraising envelope. Start by setting up a personal fundraising page. Here is our school page link: [Clark-Wilkins Fundraising Page](#)
