**INVENTION CONVENTION
2020 IS COMING!**

**CLICK [HERE](#) FOR VIDEO INSTRUCTIONS,
AND [HERE](#) FOR THE PACKET**

This “at home project” to create an inventive innovation is an exciting chance to flex those inventor muscles. We’re faced with dilemmas and needs each day that may benefit from a new solution. It’s fun to try new things!

There are two categories you can enter your invention into.

The **General Category**, or... This year’s **Challenge Category** is “**Go Green at School**”. Now is your opportunity to make your school more efficient and environmentally friendly. What can you do to reduce food waste in the cafeteria, cook or serve meals differently, save energy, make an easier or fun way to recycle or compost, or reduce water usage?

We know you have some bright ideas. So let’s begin to make our school a “greener” place.

Monday, Jan 13th the Inventor’s Packet will be released, and registration opened with an introductory video.

Wednesday, Jan 15th at 4:30pm in the Wilkins MPR. Materials and expectations will be reviewed. Attendance is highly recommended for first-time inventors.

Our big night of the Invention Convention Expo and Awards Ceremony is Wednesday, February 19, 2020 at 6:00 pm. Inventors will attend and speak with school community judges about their work. Awards will be given, and refreshments served.

If you have any questions please contact Gail Polio at gpolio@sau39.org
