

## **My School Bucks Online Food Service Prepayment Program**

SAU #39 School District's Food Service Department offers a convenient, easy and secure online prepayment service to deposit money into your child's school meal account at any time. **We are asking all parents whose students will be purchasing meals at school to open an online My School Bucks account.** When each child's account has had money deposited prior to entering the cafeteria, the lunch lines will move faster, and students will have more time to move to the specific eating areas to eat and be with friends.

- Setup account on your computer or phone.
- Payments can be made via debit, credit or echeck.
- Your student will be able to make a purchase immediately after funds are added
- You can receive low balance emails.
- You will have the ability to print a copy of your child's eating history report.
- Balances from last year are carried over from school to school.

To access this service:

Click on the Souhegan Website at <https://www.sau39.org/Domain/8> and select the My School Bucks – pay for school meals
