The School Board authorizes the School District Treasurer, working in conjunction with the Superintendent and his/her designee and pursuant to RSA 197:23-a, to invest the funds of the District subject to the following objectives and standards of care.

OBJECTIVES

The three objectives of investment activities shall be safety, liquidity, and yield.

1. **Safety** of principal is the foremost objective in this policy. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital by mitigating credit and interest rate risk. This will be accomplished by limiting the type of the investments and institutions to those stipulated by statute and fully covered by FDIC insurance or collateral approved pursuant to applicable law.

2. **Liquidity** of the investment portfolio shall remain sufficient to meet all operating requirements that may be reasonably anticipated.

3. **Yield.** The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above.

STANDARDS OF CARE

1. **Prudence.** The standard of prudence to be used by the school District Treasurer and Superintendent, or his/her designee involved in the investment process, shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio.

2. **Ethics and conflicts of interest.** The School District Treasurer and Superintendent, or his/her designee involved in the investment process, shall refrain from personal business activity that could conflict with the proper execution and management of the investment program or that could impair their ability to make impartial decisions. The members of the Investment of Funds Committee shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial institutions with which they conduct business. They shall also disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees and officials shall subordinate their personal investment transactions to those of the School District, particularly with regard to the timing of purchases and sales.

3. **Internal Controls.** The District Treasurer and Superintendent or his/her designee shall establish a system of internal controls, which shall be documented in writing. The internal controls shall be reviewed by an independent auditor.

The investment of funds will be left to the discretion of a Committee consisting of the Treasurer, the Director of Finance and the Business Administrator without prior approval of the Board. This committee shall be guided by RSA 197:23-a.
MONT VERNON POLICY

The Board will review the investment policy annually as part of its Budget Assumptions.
